

21 April 1967

MEMORANDUM FOR: Administrative Officer, O-DCI

Gene:

I have looked at this in some haste and will be glad to discuss it with you and [] at some later date.

25X1

My offhand reaction is that this does not wash for a number of reasons. If [] can get along without a GS-6 secretary-steno position, this is fine. This does not argue, however, that we should relieve NSA of their responsibility to provide someone to fill the position in question and pay the incumbent from now on. After all, NSA employs civilians. Why don't they pick up [] and let him continue in the position?

25X1

More important than all of this is the fact that I think a 36-year-old man should not start out in the Agency expecting to make his career between now and the age of sixty in the USIB Secretariat.

[]
L. K. White

Col. White:

I discussed the attached with Manpower Control Branch, PPB. [] feels that the 3 point increase from GS-6 to GS-9 as it affects average grade is minimal and not a major factor in this request.

The question before us is do we want to relieve NSA from their obligation to staff this position on a non-reimbursable basis. NSA is more than willing to honor their commitment to provide a man for this position.

[] over the past several years has acquired a reservoir of knowledge on document distribution and control within the USIB community. He has the same experience in relation to the SIGINT Committee and the U. S. Communications Security Board.

Although it is a junior professional position, [] believes it is vital and an important function and contributes greatly to the overall effectiveness of the Executive Secretariat. By gaining administrative control over the position and the selection of the incumbent, it would be beneficial to the operation of this extremely active office.

Recommend Approval.
